## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

- Authorization for this examiner's amendment was given in a telephone interview with Kory D. Christensen on 11/15/2005.

The application has been amended as follows:

Claims 61-62 cancelled.

- Claims 1-2, 6-19, 21-33, 37-39, 43-46, 50, 58-60 are allowed.
- The following is an examiner's statement of reasons for allowance:

The prior art fails to anticipate or render the limitation (s), "wherein each class has a utility factor that is calculated by combining, via a sub-linear function, the utility factors of those scheduled objects that correspond to the class, and wherein the sub-linear function includes a square-root function" obvious in combination with all other limitations of the claimed independent claims 1 and 33.

The prior art fails to anticipate or render the limitation (s), “wherein reordering the scheduled objects includes: moving a selected object up one position in the schedule; calculating an updated overall schedule utility factor; determining if the updated overall schedule utility factor is greater than the previous overall schedule utility factor; and retaining the new position of the selected object if the updated overall schedule utility factor is greater than the previous overall schedule utility factor...” obvious in combination with all other limitations of the claimed independent claims 19 and 39.

The prior art fails to anticipate or render the limitation (s), “repeating the selecting, transmitting and incrementing steps: wherein the incremental value is dependent on the transfer rate for the selected object, and wherein the incremental value is  $1/(\text{the transfer rate})$  for the selected object...” obvious in combination with all other limitations of the claimed independent claim 46.

The prior art fails to anticipate or render the limitation (s) in independent Claims 43, 58 and 60, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
